

# SAFETY: A SHARED CONVERSATION

Looking for real-world safety solutions—not another lecture?

Join us for **Safety: A Shared Conversation**, a collaborative roundtable for anyone who plays a role in workplace safety—including safety professionals, facilities, HR, procurement, and others who believe safety matters. This interactive session focuses on peer discussion—not lectures—giving participants the opportunity to share challenges, exchange real-world solutions, and build meaningful connections.

This isn't a traditional meeting. It's a collaborative space where your experience matters.

Whether you're navigating compliance concerns, training hurdles, or emerging workplace risks, this roundtable gives you a chance to learn from others who are in it with you.

You'll leave with: ✓ New contacts ✓ Fresh perspectives ✓ Practical ideas ✓ At least one solution you can put into action

If you valued the Safety Officer Network Meetings, you'll love this updated format—more conversation, more collaboration, and more actionable outcomes.

What to expect:

- Open discussion of current safety challenges
- Small-group roundtables focused on real issues facing your agency
- Sharing of successes, best practices, and helpful resources
- Time to network and build connections with colleagues across organizations
- Takeaways you can apply immediately
